

smartner

Jussi Räisänen Company Co-founder & Vice President, Sales

Jussi Räisänen co-founded Smartner Information Systems in October 1999. His mission is to provide mobile employees with easy and secure access to critical information while out of the office.

Jussi is responsible for Smartner's marketing and sales activity, currently focusing on the company's expansion into the European market including the UK, France and Italy.

Prior to co-founding Smartner, Jussi worked at a Finnish new media company, Digia, combining management consultancy with the development of business application software. In addition, Jussi has worked for the World Bank and Trantex, a localisation services company, now part of Bowne Global Solutions.

Jussi studied at the Institute of Strategy and International Business at the Helsinki University of Technology, Finland, where he met the co-founder of Smartner, Mika Uusitalo.
